
Spring 1 Homework

Dear Parents,

This is the topic homework for Spring 1 based on our topic 'Survival'. Once your child has completed a piece of homework, please send it in with them. We will celebrate our homework in the last week of this half term.

There are six activities that have been marked with either an (i) or a (h). This indicates which pieces are to be done by the children independently and which ones could require help.

If you have any questions, please do not hesitate to get in touch.

Kindest regards, Mr Bentham and Miss. Kennedy. ☺

English

Camp out in your garden (or think of a time that you went camping). Write a diary about:

- How you prepared yourself.
- How you kept warm.
- The noises that you heard.
- How you felt during the experience

Geography/Science

Follow the link below to create your very own ecosystem! You can use moss or you can use small seeds (such as mustard seeds) to plant. You will have your very own biome in your very own home!

https://www.shaverscreek.org/2020/04/08/create-your-own-mini-ecosystem-at-home/

English

Create a crossword based on the words below. Remember to give your reader a slight clue in the description, but do not give too much away!

Endurance, Shackleton, Antarctica, Elephant Island, Stowaway, Expedition, Resources,

Topic

Using the Morse code, write a rescue message – make sure it includes important information, such as your name and location!

Art

Using any materials that you wish, create your very own camouflage. It must be based on a certain biome to aid your disguise!

Maths

Using a pedometer, track how many steps you take in one day. Calculate how many days it will take to climb:

Everest: 44, 250 steps.

Snowden: 5, 425 steps

Scafell: 4, 890 steps.
