Well I will always remember, the day we started here, it seems like forever,

That we've been part of this school – no it's never been sadder than the summer of 2024.

We are only 11, and making our way up now we are in Year 6, taking our SATs test, singing friends are forever and ever, well I guess that it's true.

Dancing on the lake in the cold of Tower Wood with our Broughton friends and we sing,

Songs with all of our childhood friends, and it went like this said,

Ooops it's time to be leaving Broughton Pri-mary, bye,

Always wanna hold on to the memories of our teachers and our school, uh,

Paint a picture with Miss. Heath, of the days that we were young, singing at the top of all our lungs,

Never thought we'd be leaving, fast forward to right now - we can hardly believe it,

And we are all we need when we're working together,

I'll never forget the class of 24…

Singing in our show, going toe-to-toe with our Willow friends and we sing,

Songs to all our parents yeah, and it went like this said

Ooops it's time, to be leaving singing bye bye bye,

Never gonna let go of the memories gonna hold them in my heart uh,

Paint a picture of you and me on the days that we were young, singing at the tops of both of our lungs,

On the day we leave the school, on the day we say goodbye.

Dancing on the Eye just like Darren Tan with our old school friends and we sing songs that we will never forget, oh no

Ooops it's time, we are leaving singing bye bye bye, (click)

Always gonna hold on to the memories gonna hold them in my heart uh,

Take a picture of this moment now, gonna save it forever,

As we leave these doors together,

On the day we leave our school,

On the day we say goodbye,

On the day we leave our school,

It's okay if we cry.
